CHECK OUT WHAT'S NEW
IN THE HU-FRIEDY FAMILY!

For more than one hundred years, Hu-Friedy has led the dental industry through **technological innovation**.

We consistently collaborate with **research centers, universities, and key opinion leaders** to understand the emerging needs of practitioners, to stay at the forefront of the latest dental technologies and methodologies, and to develop new and ever-better products

NEW 3SESSENTIAL KIT BY WERESTORE.IT

NEW

THE ESSENTIAL RESTORATIVE KIT INCLUDING "PLUG&SCULPT" INSTRUMENT

The Hu-Friedy **3SESSENTIAL KIT** by Werestore.it is the most straightforward kit of restorative ever made, with just **3 essential instruments at once: Anterior, Posterior and Spatula**, from the Hu-Friedy Black Line Collection.

FEATURES AND BENEFITS

- **Essential method:** having only three instruments makes restorative procedures straightforward
- **Plug&Sculpt concept:** The **Posterior** can plug and sculpt the composite by using its two different tips
- **Solid brush:** The **Anterior** models and spreads the composite easily, just like a brush
- **Different colours:** each colour helps to easily identify the instrument: RED for Anterior, BLUE for Posterior and GREY for Spatula
- **Black Line Collection instruments:** smooth surface reduces stickiness to composite material and the black colour has more contrast to the dental hard and soft tissues.
- **Ergonomics and visibility improved:** allow dental clinicians to perform at their best.

NEW TITANIUM IMPLANT SCALERS

PERFORM AT YOUR BEST with Hu-Friedy's new, state of the art line of Titanium Implant Scalers. Made from the same titanium alloy as implants and abutments, these scalers are expertly designed and manufactured for implant maintenance, debridement, biofilm removal and can be used both supra and subgingival.

- **Improved visual acuity** with Hu-Friedy's signature Teal colored Anodized Titanium
- **Optimized sharpness** with cutting edges that are finely honed and sharpened post Anodization process
- **Enhanced instrument characteristics** for Implant maintenance with the ability to remove calculus and biofilm
- **Increased instrument value** with the ability to be sharpened at any time to extend the useful life of the instrument
- **Ergonomic sensitivity** featuring our Ergo handle that offers a large diameter and cross/hatch design for maximum tactile grip and support

DID YOU KNOW?

All hinged instruments – forceps, rongeurs, scissors, pliers, hemostats, orthodontic pliers, etc. – should be kept lubricated. Regular use of proper lubricants, like Hu-Friedy Penetrating Oil (**IPS**) and Instrument Lubricant Spray (**ILS**), will prevent rust, corrosion and stiff joints to ensure smooth operation. **All hinged instruments should be sterilised in the open position.** Hu-Friedy Penetrating Oil (**IPS**) and Instrument Lubricant Spray (**ILS**) are tested on Hu-Friedy instruments.

NEEDLE HOLDERS

Perma Sharp Hu-Friedy Perma Sharp needle holders feature tungsten carbide inserts with a matched diamond-cut pyramidal profile for enhanced longevity, a secure, positive suture needle grasp and reduced risk of cutting the suture material. With a precision designed hinge, the smooth surface reduces the risk of catching and or cutting the suture material during the knot tying process, enhancing clinical efficiencies. For optimal grip and control, Hu-Friedy offers a variety of design options, including standard, finger and palm controlled closure.

Hu-Friedy

INSTRUMENT MANAGEMENT SYSTEM AND INFECTION PREVENTION

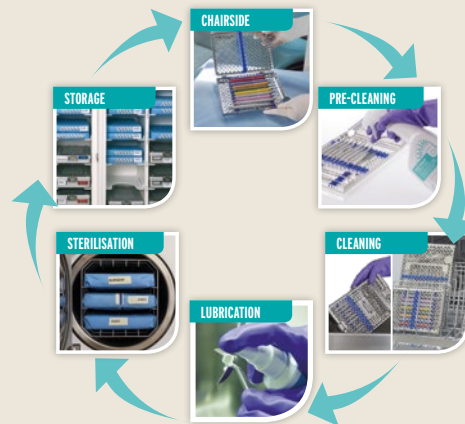

Hu-Friedy's **Instrument Management System** is the most comprehensive, reliable, and complete instrument processing and infection control system on the market today. IMS combines **sterilisation, storage and organization** of instruments in one **integrated system**.

Hu-Friedy's IMS system allows you to focus on your patients rather than wasting valuable time looking for the instruments to complete a procedure.

WORK SMARTER, NOT HARDER: CHOOSE THE IMS SOLUTION

Why using IMS Solution?

- Enhanced chairside efficiency and easy training with standardised procedural set-ups incrementing the productivity
- Reduced set-up time with organised storage of instruments within procedural labelled cassettes
- Entire cassette can be placed into Thermo-disinfector, ultrasonic bath and autoclave
- Reduced need for manual sorting of instruments into pouches
- Cleaning time reduced, allowing for a more productive team.

WeRestore .it

WeRestore.it is a project founded in 2016 by Gaetano Paolone and Salvatore Scolavino.

WeRestore.it aims for excellence in adhesive direct and indirect restorative dentistry. Both Salvatore and Gaetano are active members of the Italian Academy of Restorative Dentistry. They wrote a book about direct posterior restorations edited by Quintessence Int. Publishing.

Gaetano is adjunct professor of Restorative Dentistry at Vita e Salute University, San Raffaele, Milan. They lecture all around the world in restorative dentistry and run master courses in the WeRestore.it course center in Rome.

OPINION LEADERS EDUCATION **GAETANO PAOLONE & SALVATORE SCOLAVINO**

Would you like to discover some tips and tricks to achieve a perfect isolation?

Do you know which are the preparation tools and how to use them?

Preheated composite, flowable composite or dual-cure cement for overlay composite luting?

CHECK THIS OUT AND MUCH MORE ON WERESTORE.IT CHANNEL.

FOR MORE INFORMATION:
www.adhesive-dentistry.com

- Online video course
- Full HD Quality
- PC, MAC, Tablet e Mobile

• Hosted on:  **osteocom**
THE DENTAL LEARNING PLATFORM

The Adhesive Dentistry Procedures online channel aims to teach on a wide variety of innovative procedures concerning Adhesive Dentistry, in order to be aligned on techniques, materials and clinical advances in both direct and indirect restorations.
